Executive Summary

This strategic plan outlines a comprehensive roadmap for Shaheed Mohtarma Benazir Bhutto Medical University (SMBBMU) over the next five years, designed to enhance the institution's overall performance and reinforce its position as a leader in healthcare education, research, clinical services and community engagement. SMBBMU is committed to establishing a transparent and accountable governance framework that supports robust leadership through regular policy reviews, the deployment of digital dashboards and ERP systems, and comprehensive leadership development programs. These initiatives aim to streamline decision-making processes, boost stakeholder engagement, and foster a culture of continuous improvement.

To remain at the forefront of healthcare education, the University will undertake a thorough review and update of its academic curricula to align with current regulatory standards and emerging industry trends. New specialized programs and courses will be introduced, supported by targeted faculty development initiatives that enhance teaching quality and improve student outcomes, ensuring that academic offerings are both innovative and relevant.

Recognizing the importance of a vibrant research culture, SMBBMU will invest in establishing dedicated research centres while making concerted efforts to secure external funding and increase research outputs through collaborative projects and joint initiatives. By fostering interdisciplinary research and encouraging innovative thinking, the institution aims to significantly elevate its research impact and reputation.

Strengthening ties with local communities is also a central pillar of this strategic plan. The university will expand its outreach initiatives by launching health camps, mobile clinics, and public seminars, while integrating service-learning into its academic programs. These measures are designed to enhance public health outcomes, build strategic partnerships with healthcare providers, and solidify SMBBMU's role as a community leader in healthcare services.

A modern, sustainable campus is critical for delivering quality education and research. Accordingly, the plan prioritizes the phased upgrade of physical infrastructure such as classrooms, laboratories, and libraries, alongside the integration of advanced digital tools including ERP and learning management systems. Additionally, green campus initiatives will be implemented to promote environmental sustainability and operational efficiency.

Finally, SMBBMU will focus on building robust strategic partnerships to diversify funding sources and enrich its academic and research capabilities. This will include formalizing alliances through MOUs with hospitals, industry leaders, and international academic institutions, as well as launching joint research projects and exchange programs. Strengthening alumni networks and engaging corporate sponsorships will further contribute to the institution's growth and innovation.

Overall, by aligning institutional governance, academic innovation, research, community engagement, infrastructure modernization, and strategic partnerships with measurable performance indicators, this strategic plan positions SMBBMU for sustained excellence, enabling it to meet future challenges, seize emerging opportunities, and continue its mission of transforming healthcare education and public health services both locally and globally.

Message of Vice Chancellor

The history of Shaheed Mohtarma Benazir Bhutto is 50 years old and dates back to 1973 when the foundation of Chandka Medical College was laid during the time of Prime Minister Shaheed Zulfiqar Ali Bhutto. The university, Shaheed Mohtarma Benazir Bhutto Medical University, a vision of Shaheed Benazir Bhutto was established through an Act of Sindh Assembly in 2008.

It is with immense pride and optimism that I unveil our Five-Year Strategic Plan for 2025–2030 a comprehensive roadmap that embodies our collective aspiration to position SMBBMU as a beacon of excellence in healthcare education, research, and clinical services. This plan is the culmination of a rigorous, in-depth analysis including extensive SWOT and PESTEL evaluations and is firmly aligned with our commitment to the United Nations Sustainable Development Goals (SDGs).

Over the next five years, our focus will span several critical strategic areas:

Academic Excellence: We will continually enhance our curricula, ensuring that our programs meet the highest international standards and foster critical thinking, innovation, and lifelong learning.

Research and Innovation: By establishing dedicated research centres and fostering collaborative projects, we aim to elevate our research output and drive innovations that address emerging healthcare challenges.

Community Engagement: We will expand our outreach through health camps, public seminars, and partnerships with local and national health organizations, ensuring that our work creates tangible improvements in community health.

Infrastructure and Technology Integration: Our commitment to modernizing both physical and digital infrastructures including state-of-the-art labs, advanced digital learning platforms, and green campus initiatives will provide a robust foundation for our academic and clinical endeavors.

Governance and Administrative Excellence: We will strengthen our institutional frameworks with updated policies, transparent processes, and continuous leadership development, ensuring efficient and ethical operations.

Human Resource Development: By attracting, nurturing, and retaining exceptional faculty and staff, we will empower our workforce to lead, innovate, and excel.

Sustainability: We will integrate sustainable practices throughout our operations, reducing our environmental footprint while promoting responsible resource management.

Every element of this plan has been crafted with clear directions, measurable KPIs, and a detailed timeline. It ensures that every college and department within SMBBMU works synergistically to empower tomorrow's healthcare leaders. Our strategic initiatives are not merely goals on paper; they are a pledge to our students, faculty, and the broader community a promise to transform challenges into opportunities and to create a lasting, positive impact on lives locally, nationally, and globally.

I invite every member of our SMBBMU family faculty, staff, and students alike to join me on this exciting journey. Together, we will not only uphold our tradition of excellence but also pioneer new paths in healthcare education and service.

Thank you for your unwavering dedication and support as we embark on this transformative chapter.

a) Vision Statement

To be a leading university in healthcare education, research, and clinical services transforming lives and communities by nurturing competent, compassionate, and innovative healthcare professionals dedicated to advancing societal health and well-being locally, nationally, and globally.

b) Mission Statement

At SMBBMU, our mission is to:

- Cultivate evidence-based knowledge, practical skills, and professional attitudes that empower our learners to deliver high-quality, safe, and patient-centered care.
- Foster curiosity, critical thinking, problem solving, and lifelong learning to adapt to an ever-evolving healthcare landscape.
- Create an inclusive, respectful, and diverse educational environment that embraces every perspective.
- Promote scientific inquiry, technological innovation, and academic leadership to address contemporary health challenges.
- Strengthen faculty capacity to meet the strategic goals of the university
- Engage collaboratively with communities to enhance public health outcomes.

c) Our Core Values

- Excellence and Innovation:** Commit to continuous improvement, pioneering research, and heartfelt care.
- Integrity:** Uphold ethical standards, accountability, and transparency in all academic and clinical practices.
- Respect, Empathy and compassion:** Provide patient-centered care that respects the dignity and needs of every individual.
- Collaboration & Teamwork:** Foster interprofessional cooperation and mutual respect to achieve excellence.
- Diversity and Inclusion:** Embrace and celebrate diverse perspectives, ensuring equity across all facets of education and service.
- Community Engagement:** Actively contribute to local and global health improvements through proactive outreach and service.

d) Commitment to Sustainable Development Goals (SDGs):

In alignment with our strategic priorities, SMBBMU is dedicated to contributing to the United Nations SDGs:

- a. SDG 3 – Good Health and Well-being:** Equip students to address diverse health challenges and ensure equitable access to quality healthcare.
- b. SDG 4 – Quality Education:** Deliver transformative, inclusive, and accessible education that prepares healthcare professionals for dynamic challenges.
- c. SDG 5 – Gender Equality:** Foster an environment that promotes equality, empowers all genders, and provides equal opportunities for success.
- d. SDG 17 – Partnerships for the Goals:** Build robust collaborations with local, national, and international partners to enhance educational outcomes and community health.
- e. Environmental Sustainability:** Commit to green campus initiatives, renewable energy adoption, waste reduction, and resilience strategies to protect our environment for future generations.

Tagline:

Health and Wellbeing for All (HAWA)

SWOT Analysis

a) Strengths

- **Highly Qualified Faculty:** Renowned for expertise and clinical experience.
- **Strong Clinical Training Programs:** Providing hands-on clinical training with established hospital partnerships.
- **Strong Partnerships:** Collaborations with hospitals and research institutions; no major competitors in upper Sindh.
- **Additional Strengths:** Accredited programs, a committed workforce, and established community services.

b) Weaknesses

- **Limited Funding:** Inadequate resources from current funding streams.
- **Outdated Infrastructure:** Aging facilities and limited computer labs/ERP systems.
- **Low operational efficiency:** Heavy procedures affect operational efficiency.
- **Lack of Technical Advancement:** Slow adoption of modern digital and educational technologies.
- **Limited Advanced Research Facilities:** Limited support and infrastructure for cutting-edge research initiatives.
- **Limited Student Support Services:** Insufficient support systems and mentorship opportunities.
- **Other Issues:** Lack of standardized operating procedures (Sops), minimal faculty development, and weak collaborative research activities.

c) Opportunities

- **Emerging Healthcare Needs:** Increasing demand for innovative healthcare solutions.
- **Advances in Medical Technology:** New technologies (e.g., AI, telemedicine) that can transform education and practice.
- **Potential for New Partnerships:** Opportunities to forge alliances with local, national and international institutions.
- **Increased Funding Opportunities:** Possibility of accessing alternative revenue streams (corporate sponsorships, alumni contributions, research grants).
- **Expansion of Online Programs:** Growing demand for digital and flexible learning environments.
- **Additional Opportunities:** Introducing new courses/diplomas, setting up executive clinics, establishing new labs, and leveraging digital marketing.

d) Threats

- **Increasing Competition:** Other institutions raising their profiles and capabilities.
- **Regulatory Changes:** Frequent shifts in legal and accreditation requirements.
- **Economic Downturns:** Inflation and reduced government or donor funding that can strain operations.
- **Declining Enrollment:** Changing demographics or competition could lower student numbers.
- **Technological Obsolescence:** Rapid advancements that may render current systems outdated.
- **Other Threats:** Natural disasters (e.g., floods), pandemics, and political influences.

PESTEL Analysis

a) Political Factors

- **Challenges:**
 - Government policies affect funding, admissions, and salaries.
 - Limited budget allocations.
 - Support is often kept only for specific areas (e.g., infrastructure).
- **Recommendations:**
 - **Advocacy & Alliances:** Lobby for increased budget and secure grants by building partnerships with international organizations.
 - **Diversification:** Develop strategies to reduce dependency on political support by diversifying funding sources.

b) Economic Factors

- **Challenges:**
 - Inflation and economic downturns drive up operational costs and delay projects.
 - Reliance on limited funding sources (government grants, HEC funds, student fees) creates sustainability risks.
 - Declining enrollment further strains resources.
- **Recommendations:**
 - **Cost-Effective Measures:** Implement initiatives to reduce expenses.
 - **Revenue Diversification:** Explore alternative revenue streams (alumni donations, corporate sponsorships, research grants).
 - **Scholarship Programs:** Enhance financial aid to attract and retain students.

c) Social Factors

- **Challenges:**
 - Demographic pressures such as an aging faculty and evolving student needs (mental health, extracurricular engagement).
 - Limited community engagement reduces the institution's broader impact.
- **Recommendations:**
 - **Faculty Replacement & Development:** Strategize for faculty turnover and invest in ongoing professional training.
 - **Community Engagement:** Increase outreach programs, health camps, and partnerships with local industries.
 - **Student Support:** Expand mental health services and extracurricular opportunities.

d) Technological Factors

- **Challenges:**
 - Limited adoption of modern systems (ERP, LMS, AI) and outdated curriculum diminish competitiveness.
 - Financial constraints slow down digital transformation.

- **Recommendations:**
 - **Digital Investment:** Upgrade IT infrastructure and adopt advanced learning platforms.
 - **Faculty Training:** Provide comprehensive training on new technologies.
 - **Curriculum Update:** Revise courses to incorporate emerging technologies like AI and telemedicine.

e) Environmental Factors

- **Challenges:**
 - Climate change and extreme weather (floods, heatwaves) negatively impact campus infrastructure.
 - Limited sustainability initiatives are currently in place.
- **Recommendations:**
 - **Resilient Infrastructure:** Upgrade facilities to withstand environmental risks.
 - **Green Initiatives:** Launch renewable energy projects, tree plantation drives, and sustainability programs.
 - **Academic Integration:** Incorporate environmental topics into curricula and research projects.

f) Legal Factors

- **Challenges:**
 - Frequent regulatory changes and compliance issues (litigation, employee disputes) disrupt operations.
 - Insufficient measures to curb unethical practices.
- **Recommendations:**
 - **Dedicated Legal Team:** Establish a team to manage compliance and address legal challenges.
 - **Policy Updates:** Regularly review and update institutional policies.
 - **Ethics Training:** Conduct seminars on ethical practices for staff, faculty, and students.

SWOT Conversion Strategies

SWOT Element	Challenge	Conversion Strategy	Expected Outcome
Weakness	Limited Funding	Leverage strong partnerships, attract alternative funding (grants, corporate sponsorships, alumni networks)	Diversified revenue streams and improved financial stability
	Outdated Infrastructure	Invest in digital transformation and modernization; secure public–private partnerships for upgrades	Modernized facilities that enhance learning and research capabilities
	Inefficient Administrative Processes	Implement ERP systems and streamline processes; provide staff training on best practices	Increased operational efficiency and reduced administrative delays
	Lack of Technical Advancement	Integrate emerging technologies (AI, LMS, digital labs) and update curriculum regularly	Enhanced academic competitiveness and improved student outcomes
	Limited Student Support Services	Expand mentorship, counselling, and career support programs; use digital platforms for wider reach	Higher student satisfaction, retention, and improved support networks
Threat	Increasing Competition	Capitalize on high-qualified faculty and strong clinical training to differentiate the institution; boost marketing efforts	A competitive edge that attracts top students and faculty
	Regulatory Changes	Engage proactively with regulators to set high standards and develop robust compliance systems	Strengthened institutional reputation and quality assurance
	Economic Downturns	Diversify revenue streams, optimize costs, and implement innovative funding strategies	Greater financial resilience in challenging economic climates
	Declining Enrolment	Expand online programs, enhance community outreach, and improve student support services	Broader, more resilient student base and improved enrolment figures
	Technological Obsolescence	Invest continuously in new technology and training; foster a culture of innovation	Future-ready academic environment and sustained technological relevance
	Natural Disasters/Pandemics	Develop robust disaster preparedness and business continuity plans	Improved operational resilience and sustained service delivery

PESTEL Conversion Strategies

PESTEL Factor	Challenge	Conversion Strategy	Opportunity/Outcome
Political	Limited government funding; policy instability	Build international alliances and diversify funding sources; engage in advocacy for increased budget allocations	Enhanced financial support and reduced reliance on fluctuating government policies
Economic	Inflation and rising	Implement cost-effective measures; explore	Improved financial sustainability and

	operational costs; declining enrolment.	alternative revenue streams (alumni, corporate sponsorships, research grants)	operational efficiency
Social	Demographic pressures; limited community engagement	Expand community outreach initiatives, student support, and engagement programs; tailor programs to evolving social needs	Increased community impact, enhanced student enrolment, and stronger institutional reputation
Technological	Slow digital adoption; outdated systems and curriculum	Invest in modern IT infrastructure, digital learning platforms, and continuous faculty training; update curriculum with emerging technologies	Enhanced academic delivery, increased competitiveness, and improved learning outcomes
Environmental	Vulnerability to extreme weather; limited sustainability initiatives	Upgrade infrastructure for resilience; launch comprehensive green initiatives (renewable energy, tree plantations, sustainability programs)	Improved environmental stewardship and reduced operational disruptions
Legal	Frequent regulatory changes; compliance issues	Establish a proactive legal framework with continuous policy updates; conduct regular ethics and compliance training	Enhanced credibility, reduced legal risks, and smoother operational management

KEY STRATEGIC AREAS:

- a. Institutional Governance & Leadership
- b. Academic Excellence & Curriculum Innovation
- c. Research & Innovation
- d. Community Engagement & Public Health Services
- e. Infrastructure Development & Technology Integration
- f. Partnerships & Industry Collaboration

SMBBMU's strategic action plan focuses on six key areas to drive long-term growth and excellence. In the realm of Institutional Governance and Leadership, the university is committed to enhancing transparency, accountability, and effective decision-making by regularly reviewing and updating its policies, establishing digital dashboards, and launching leadership development and mentoring programs. Success in this area will be measured by the completion of policy updates, improvements in leadership survey scores, and the effectiveness of committee meetings.

For Academic Excellence and Curriculum Innovation, SMBBMU aims to deliver high-quality, future-oriented academic programs that align with emerging healthcare trends. This will involve comprehensive curriculum reviews, launching new programs, and integrating digital resources such as learning management systems and simulation labs into teaching practices. Key performance indicators here include the number of revised courses, student satisfaction levels, and accreditation outcomes.

In the area of Research and Innovation, the institution seeks to build a robust research culture by establishing dedicated research centers and innovation incubators, securing external funding and grants, and promoting collaborative projects both internally and with industry partners. Success will be tracked through the number of research projects initiated, publications produced, and patents or innovations registered.

Community Engagement and Public Health is another strategic pillar, with initiatives designed to deepen the university's impact on local communities. This will be achieved by launching health camps, mobile clinics, public seminars, and incorporating service-learning into academic programs. The effectiveness of these efforts will be evaluated based on the number of outreach events, community participation, and measurable improvements in local health outcomes.

Infrastructure Development and Technology Integration is targeted through the modernization of campus facilities, including classrooms, laboratories, and libraries, along with the adoption of advanced IT systems such as ERP and LMS platforms. Additionally, sustainable initiatives like renewable energy projects will be prioritized. Key metrics include the percentage of facilities upgraded, digital adoption rates, and sustainability certifications achieved.

Finally, SMBBMU plans to strengthen its external networks through Partnerships and Industry Collaboration by forging strategic alliances with hospitals, industry leaders, and international institutions. This will involve establishing exchange programs, signing MOUs, and hosting industry-led workshops, with success measured by the number of new partnerships, joint research projects, and the amount of external funding secured.

Overall, this comprehensive strategy outlines a clear roadmap for institutional transformation, ensuring that each critical area is addressed systematically with measurable outcomes to support SMBBMU's long-term vision and mission.

Strategic goals and objectives with initiatives

Strategic Goal – **1: Institutional Governance & Leadership**

Enhance effective governance and leadership for sustainable institutional growth.

Objective 1: Develop comprehensive policy and procedure documentation.

- **Initiatives:**
 - Conduct policy audits and develop standard templates aligned with regulatory bodies.
 - Finalize and implement governance policies; monitor compliance and feedback.

Objective 2: Strengthen leadership capabilities through structured development.

- **Initiatives:**
 - Identify training needs; launch leadership training and mentoring programs.
 - Institutionalize annual training with impact evaluation and peer reviews.

Objective 3: Implement transparent and accountable governance practices.

- **Initiatives:**
 - Design and deploy a governance KPI dashboard.
 - Link dashboard to real-time metrics and publish governance review summaries.

Objective 4: Enhance inter-departmental coordination mechanisms.

- **Initiatives:**
 - Form governance subcommittees and coordination cells.
 - Review coordination KPIs and showcase best practices institution-wide.

Objective 5: Institutionalize sustainable governance practices.

- **Initiatives:**
 - Define and embed governance KPIs in strategic planning and budgeting.
 - Conduct external audits and publish the governance strategy by 2030.

Strategic Goal – 2: Academic Excellence & Curriculum Innovation

Achieve and sustain high-quality, innovative academic programs that meet global standards.

Objective 1: Align curricula with national regulatory standards.

- **Initiatives:**
 - Review and update curricula per HEC, PMDC, PNAC guidelines.
 - Implement revised curricula and evaluate student outcomes.

Objective 2: Enhance teaching quality across the institution.

- **Initiatives:**
 - Conduct pedagogical workshops and peer teaching reviews.
 - Institutionalize faculty development and reward excellence in teaching.

Objective 3: Integrate educational technology in teaching-learning processes.

- **Initiatives:**
 - Deploy LMS, e-learning platforms, and virtual labs.
 - Establish smart classrooms and assess learning analytics.

Objective 4: Institutionalize curriculum quality improvement.

- **Initiatives:**
 - Create review boards; collect industry and alumni feedback.
 - Benchmark outcomes and publish annual curriculum impact reports.

Objective 5: Launch advanced academic programs.

- **Initiatives:**
 - Start MPhil, PhD, and diploma programs with accreditation.
 - Promote interdisciplinary and clinical academic offerings.

Strategic Goal – 3: Research & Innovation

Build and sustain a high-impact research and innovation ecosystem.

Objective 1: Strengthen institutional research infrastructure.

- **Initiatives:**
 - Establish research centres and grant offices with defined themes.
 - Provide seed funding and upgrade research labs and equipment.

Objective 2: Promote collaborative research and innovation.

- **Initiatives:**
 - Form research partnerships and conduct joint projects.
 - Host research symposiums and scale up partnerships.

Objective 3: Promote international research engagement.

- **Initiatives:**
 - Submit international grants and initiate global exchanges.
 - Host and participate in international research conferences.

Objective 4: Build research skills and ethical compliance.

- **Initiatives:**
 - Conduct training in research methodology and ethics.
 - Set up IRB and launch mentoring programs for junior researchers.

Objective 5: Foster innovation and commercialization.

- **Initiatives:**
 - Recognize high-impact research through awards and incentives.
 - Register patents and promote tech transfer and spin-offs.

Strategic Goal – 4: Community Engagement & Public Health Services

Enhance community impact through outreach and public health services.

Objective 1: Launch mobile and community health initiatives.

- **Initiatives:**
 - Organize mobile clinics and awareness events with NGO partners.
 - Track health metrics and service coverage in rural areas.

Objective 2: Build public-private health partnerships.

- **Initiatives:**
 - Sign MoUs with hospitals and organize joint events.
 - Launch training and shared service protocols.

Objective 3: Embed community service in academic curricula.

- **Initiatives:**
 - Develop service-learning modules and pilot in colleges.
 - Evaluate impact through student and community feedback.

Objective 4: Develop sustainable community health models.

- **Initiatives:**
 - Launch tech-enabled rural outreach and digital health platforms.
 - Publish annual health dashboards and reports.

Objective 5: Institutionalize engagement through structured programs.

- **Initiatives:**
 - Declare “University Health Week” and establish permanent clinics.
 - Launch the SMBBMU Community Health Impact Index.

Strategic Goal – 5: Infrastructure Development & Technology Integration

Develop modern, sustainable infrastructure and fully integrate advanced technology.

Objective 1: Upgrade facilities and implement green initiatives.

- **Initiatives:**
 - Audit infrastructure and renovate labs/classrooms.
 - Achieve 100% upgrade of priority facilities with smart features.

Objective 2: Expand academic and clinical infrastructure.

- **Initiatives:**
 - Construct new academic buildings and simulation centers.
 - Introduce e-library terminals and review infrastructure utilization.

Objective 3: Integrate smart teaching technologies.

- **Initiatives:**
 - Deploy LMS and smart tools across departments.
 - Launch virtual simulation units and digitize majority of courses.

Objective 4: Improve facility management systems.

- **Initiatives:**
 - Digitize maintenance requests and train admin staff.
 - Monitor KPIs and publish energy optimization reports.

Objective 5: Build sustainable and future-ready infrastructure.

- **Initiatives:**
 - Develop infrastructure master plan and seek green certification.
 - Implement net-zero emission annexes and publish sustainability results.

Strategic Goal – 6: Partnerships & Industry Collaboration

Forge strong, sustainable partnerships to enhance academic and research excellence.

Objective 1: Establish strategic partnerships across sectors.

- **Initiatives:**
 - Sign MoUs with hospitals, academia, NGOs, and pharma companies.
 - Launch community and clinical projects with partners.

Objective 2: Broaden research and academic exchanges.

- **Initiatives:**
 - Join global consortia and exchange programs.
 - Share research facilities and publish joint outcomes.

Objective 3: Strengthen shared resources and funding mechanisms.

- **Initiatives:**
 - Submit joint grant proposals and build shared innovation labs.
 - Track partner engagement via dashboards.

Objective 4: Institutionalize long-term alliances.

- **Initiatives:**
 - Develop a 5-year partnership roadmap and align MoUs with planning.
 - Conduct annual partner satisfaction surveys.

Objective 5: Achieve global recognition for innovation.

- **Initiatives:**
 - Host international conferences and publish indexed proceedings.
 - Secure global awards and share best practices abroad.

ACTIONS PLAN: STRATEGIC GOALS, OBJECTIVES, ACTIONS, KPIs AND RESPONSIBILITY

Strategic Goal 1: Institutional Governance & Academic Leadership

Strategic Goal: Enhance effective governance and leadership for sustainable institutional growth.

Target Milestones Year wise									
Strategic Objectives	Initiatives	2025–2026	2026–2027	2027–2028	2028–2029	2029–2030	Responsibility	Evidence	
SG01: OB01: Well-documented Policy and Procedures	OB01: IN01: Develop comprehensive policy documentation; align with regulatory bodies	-Conduct policy audit; develop policy templates Draft and validate key governance. -policies Finalize and approve policies at all levels	Implement policies and monitor compliance	Monitor compliance. Evaluate and update based on feedback and audits	Monitor compliance. Evaluate and update based on feedback and audits	Monitor compliance. Evaluate and update based on feedback and audits	VC, Registrar, Legal Cell, Academic Council	Approved Policy Manual, Compliance Reports	
SG01: OB02: Strengthen Leadership Capabilities	OB02: IN02: Launch structured training programs and leadership mentoring	Identify training needs; design leadership program	Implement pilot sessions for faculty and admin leader	Initiate mentoring for mid-career faculty	Evaluate impact through surveys and peer reviews	Institutionalize annual leadership training calendar	HR, QEC Office, Deans	Training Reports, Survey Results	
SG01: OB03: Transparent and Accountable Governance Practices	OB03: IN03: Establish digital dashboard for governance KPIs and oversight	Design and develop governance dashboard prototype	Deploy dashboard across departments; conduct training	Link dashboard to performance metrics	Publish real-time updates and governance reviews	Audit governance data and publish summary report	Registrar, IT Cell, QEC	Dashboard Records, Governance Audit Reports	

SG01: OB04: Strengthen Inter-Departmental Coordination	OB04: IN04: Form cross-functional committees and coordination cells	-Constitute governance and academic subcommittees -Committee TORs and improve workflows	Hold periodic inter-departmental coordination meetings.	Review coordination KPIs and feedback.	Update committee TORs and improve workflows	Showcase model practices across colleges	Deans, HoDs, Coordination Cell	Meeting Minutes, Coordination Reports
SG01: OB05: Institutionalize Sustainable Governance	OB05: IN05: Create long-term governance roadmap with audit and review mechanisms	Define strategic governance KPIs	Link governance to budgeting and resource allocation	Conduct mid-term external governance audit	Refine and embed continuous improvement loop	Finalize and publish governance strategy 2030	Strategic Planning Office, Internal Audit	Governance Strategy Document, Audit Reports

Strategic Goal 2: Academic Excellence & Curriculum Development

Strategic Goal: Achieve and sustain high-quality, innovative academic programs that meet global standards.

Target Milestones Year wise								
Strategic Objectives	Initiatives	2025–2026	2026–2027	2027–2028	2028–2029	2029–2030	Responsibility	Evidence
SG02: OB01: Curriculum Alignment with National Standards	OB01: IN01: Update curricula to meet HEC, PMDC, PNAC standards	Initiate curriculum review for all programs	Finalize curriculum updates with stakeholders	Submit updated curricula for approval	Implement revised curricula	Evaluate student outcomes and revise as needed	Deans, Curriculum Committee	Revised Curriculum, HEC/PMDC Accreditation Letters
SG02: OB02: Enhance Teaching Quality	OB02: IN02: Launch faculty development and peer review program	Conduct teaching quality survey	Hold 3 pedagogical training workshops	Begin peer teaching reviews across departments	Evaluate teaching outcomes using student feedback	Institutionalize faculty development framework	HR, QEC, Deans	Faculty Training Records, Peer Review Reports

SG02: OB03: Integration of Educational Technology	OB03: IN03: Deploy LMS, e-learning platforms, and simulations	Pilot LMS in 3 departments; initiate training	Expand LMS use to 100% of courses	Introduce virtual simulation labs	Develop smart classrooms and assess impact	Evaluate tech adoption and upgrade platforms	IT Cell, Academic Affairs	LMS Logs, Simulation Lab Reports
SG02: OB04: Continuous Curriculum Quality Improvement	OB04: IN04: Create curriculum review boards; collect industry feedback	Form advisory boards in all colleges	Conduct first annual review based on graduate outcomes	Update curriculum based on feedback and analysis	Benchmark outcomes nationally	Document curriculum revisions and publish impact report	Deans, QEC	Curriculum Outcome Reports, Employer Feedback
SG02: OB05: Launch Advanced Programs	OB05: IN05: Start MPhil, PhD, and clinical diploma program	Conduct feasibility study and market scan	Develop and submit proposals to HEC.	Launch at least 1 new program per college	Seek external accreditation of new programs	Expand inter- disciplinary advanced offerings	Dean of Graduate Studies, ORIC	HEC Approval Letters, Program Launch Reports

Strategic Goal 3: Research Capacity & Innovation

Strategic Goal: Build and sustain a high-impact research and innovation ecosystem.

Target Milestones Year wise								
Strategic Objectives	Initiatives	2025–2026	2026–2027	2027–2028	2028–2029	2029–2030	Responsibility	Evidence
SG03: OB01: Strengthen Research Infrastructure	OB01: IN01: Establish research centers and grant offices	Identify research themes; launch 2 centers	Recruit research leads and assign space	Provide seed funding for departmental projects	Upgrade labs and research equipment	Expand research centers across disciplines	ORIC, Deans	Center MoUs, Research Lab Inventories
SG03: OB02: Collaborative Research & Innovation	OB02: IN02: Build networks with universities, hospitals, and industry	Sign 3 MoUs for research collaboration	-Sign 5 MoUs for research collaboration -Launch joint research projects	Hold inter-institutional conferences/ symposiums. Sign 5 MoUs for research collaboration	Document outcomes and best practices	Scale partnerships and secure long-term funding	ORIC, Innovation Cell	MoUs, Joint Grant Reports
SG03: OB03: Promote International Research	OB03: IN03: Facilitate conferences, exchanges, and international grants	Identify global partners and call for proposals	Submit international grant applications	Send 10+ researchers abroad for conferences	Host one international research event	Build sustained research exchange programs	ORIC, Intl Office	Grant Documents, Exchange Logs
SG03: OB04: Research Training & Capacity Building	OB04: IN04: Train faculty and students in methodology and ethics	Hold 3 training sessions on research tools	Set up Institutional Review Board (IRB)	Train on publication, patents, and impact	Measure training impact on publication quantity	Launch mentorship for junior researchers	ORIC, QEC	Training Logs, IRB Records
SG03: OB05: innovation &	OB04: IN04:	Define research	Establish tech transfer	Identify commercialization	Register patents and	Showcase institutional	ORIC, Legal, Finance	Awards List, Patent Records

Commercialization	Recognize high-impact research; encourage applied projects	KPIs and incentive policy	office	opportunities	promote spin-offs	research at national expos		
-------------------	--	---------------------------	--------	---------------	-------------------	----------------------------	--	--

Strategic Goal 4: Community Engagement & Public Health Services

Strategic Goal: Enhance community impact through outreach and public health service.

Target Milestones Year wise								
Strategic Objectives	Initiatives	2025–2026	2026–2027	2027–2028	2028–2029	2029–2030	Responsibility	Evidence
SG04: OB01: Launch Outreach Health Initiatives	OB01: IN01: Organize mobile clinics, health camps, and awareness drives	Plan 3 outreach events in rural areas	Partner with NGOs for screening drives	Increase frequency and coverage of services	Introduce mobile health records	Collect impact metrics for community health	Public Health, CSR Cell	Outreach Reports, Health Data
SG04: OB02: Build Public–Private Partnerships	OB02: IN02: Collaborate with hospitals, local govts, and CSOs	Sign MoUs at least with 3 hospitals every year.	Co-host health screening events	Expand referral networks and shared protocols	Launch shared training and internships	Evaluate satisfaction of partners and clients	Admin, External Relations	MoUs, Screening Attendance Logs
SG04: OB03: Integrate Community Service into Curriculum	OB03: IN03: Embed service learning and real-life field exposure	Review programs and insert service modules	Train faculty on service-learning pedagogy	Begin pilot implementation in 3 colleges	Expand service model university-wide	Evaluate learning impact through community reports	Deans, Curriculum Committee	Service Learning Logs, Community Feedback
SG04: OB04: Long-Term Community Health Models	OB04: IN04: Build sustainable health promotion platforms	Identify tech solutions for rural outreach	Launch SMS-based health tips service	Link data to health center workflows	Digitize community health records	Publish health impact dashboard annually	IT, Public Health Dept	Health App Logs, Community Impact Reports

SG04: OB05: Institutionalize Engagement	OB05: IN05: Declare “University Health Week” & set up permanent clinics	Design framework for community strategy	Assign focal persons per college	Train students/staff in field communication	Finalize strategic outreach plan	Launch SMBBMU Community Health Impact Index	Registrar, CSR, QA	Community Strategy Plan, Engagement Index
---	---	---	----------------------------------	---	----------------------------------	---	--------------------	---

Strategic Goal 5: Infrastructure Development & Technology Integration

Strategic Goal: Develop modern, sustainable infrastructure and fully integrate advanced technology.

Target Milestones Year wise								
Strategic Objectives	Initiatives	2025–2026	2026–2027	2027–2028	2028–2029	2029–2030	Responsibility	Evidence
SG05: OB01: Upgrade Existing Facilities and Technology	OB01: IN01: Renovate labs/classrooms; implement green initiatives	Audit infrastructure and energy use Introduce smart classrooms with IT integration	Renovate 30% of existing classrooms and labs	Complete upgrade of 70% of priority facilities	Complete upgrade of 100 % of priority facilities	Revisit the university IT relevant needs to upgrade facilities.	Registrar, Planning, IT	Facility Audit Reports, Renovation Logs
SG05: OB02: Expand Academic and Clinical Infrastructure	OB02: IN02: Build new labs, simulation centers, and e-libraries	Finalize blueprints and site planning	Construct 2 new academic and 1 clinical building	Establish central simulation center	Add e-library terminals and subscriptions	Conduct utilization review and publish annual report	Admin, Deans, Planning	Construction Reports, Simulation Center Logs
SG05: OB03: Integrate Advanced Teaching and Learning Technology	OB03: IN03: Deploy LMS, virtual simulation, and smart classroom tools	Install LMS in all departments and train users	Begin blended course delivery	Digitize 60% of courses	Launch virtual simulation units in 3 faculties	Evaluate student outcomes using learning analytics	IT, QEC	LMS Logs, Student Feedback Reports
SG05: OB04: Improve	OB04: IN04: Introduce	Digitize facility	Monitor maintenance	Train admin staff on smart	Reduce downtime	Publish energy	Registrar, Admin, IT	Maintenance Logs, KPI

Facility Management Systems	maintenance schedules and monitoring dashboards	management requests	KPIs	monitoring tools	through predictive maintenance	savings and optimization report		Dashboards
SG05: OB05: Achieve Sustainable and Future-Ready Infrastructure	OB05: IN05: Finalize infrastructure master plan and secure certifications	Draft infrastructure vision and submit for approvals	Start certification application for green campus	Implement sustainability checklist in procurement	Build net-zero emission annexes	Complete green certification and publish sustainability report	VC Office, Planning Cell	Campus Master Plan, Sustainability Certificates

Strategic Goal 6: Partnerships & Industry Collaboration

Strategic Goal: Forge strong, sustainable partnerships to enhance academic and research excellence.

Target Milestones Year wise								
Strategic Objectives	Initiatives	2025–2026	2026–2027	2027–2028	2028–2029	2029–2030	Responsibility	Evidence
SG06: OB01: Establish Foundational Partnerships	OB01: IN01: Sign MoUs with hospitals, pharma, NGOs, and academic institutions	Identify 10 local and national partnership targets	Sign MoUs with 5 key institutions	Hold joint seminars or workshops	Launch 3 collaborative community/clinical projects	Formalize annual partner review mechanism	ORIC, External Relations, Alumni	MoUs, Workshop Records
SG06: OB02: Broaden Collaborative Research and Exchange	OB02: IN02: Launch student/faculty exchanges, joint research projects	Join 2 international consortia	Launch exchange programs with 3 universities	Send/host 10 students & faculty annually	Share joint research and innovation labs	Publish collaboration impact reports	ORIC, International Office	Exchange Logs, Research Grant Records
SG06: OB03: Strengthen Shared Resources and Funding	OB03: IN03: Submit joint grant applications; share infrastructure	Draft grant strategy for faculty	Submit 5 joint research grant proposals	Win ≥ 2 multi-institutional projects	Launch industry-sponsored innovation lab	Track partner engagement via dashboard	Research & Finance Offices	Grant Applications, Funding Data
SG6: OB0:4	OB04: IN04:	Identify 5-	Sign multi-	Align MoUs	Expand to	Conduct	ORIC,	Strategic

Institutionalize Strategic Alliances	Develop long-term partnership roadmap	year vision with partners	year collaboration agreements	with academic planning	international health systems	partner satisfaction survey and renewal	Planning	Roadmap, Renewed Agreements
SG06: OB05: Achieve Global Recognition for Innovation	OB05: IN05: Host international conferences; publish joint outcomes	Host 1 international medical conference	Publish proceedings in indexed journal	Receive 1 global innovation or education award	Present institutional best practices abroad			

KPIs Framework based upon Strategic Goals, Objectives & Initiatives (2025–2030)

Strategic Goal 1: Institutional Governance & Academic Leadership

Each KPI evolves year by year to ensure continuous improvement, compliance, and accountability.

#	Governance KPI	2025–2026 (Foundation Phase)	2026–2027 (Implementation Phase)	2027–2028 (Expansion Phase)	2028–2029 (Optimization Phase)	2029–2030 (Sustainability Phase)
KPI 1	% of policies documented and approved institution-wide	Target: Development 100%	90% validated & Implemented. 50% baseline audit completed.	100% compliance monitoring launched	Full compliance monitoring launched	Final audit shows $\geq 95\%$ active policy implementation
KPI 2	Governance dashboard coverage (% of departments onboarded)	Prototype designed for pilot in 2 units	100% departmental deployment with staff training	Dashboard linked with 3 key performance metrics	Real-time updates initiated quarterly	Independent dashboard audit completed and made public
KPI 3	% of departments with trained leadership (faculty/admin)	Training needs identified; curriculum drafted	2 pilot trainings, 30 personnel trained	Mentoring launched with 20 staff	Training impact assessed ($\geq 70\%$ satisfaction)	Leadership development calendar institutionalized
KPI 4	% of governance KPIs linked with budget/resource allocation	KPI framework designed	Budget plan aligned with ≥ 7 governance KPIs	Linkage institutionalized in planning cycle	Internal audit verifies integration	Final resource allocation strategy embedded in governance roadmap
KPI 5	Frequency of governance performance reporting (digital)	Template and schedule proposed	First dashboard report published	Bi-annual reports implemented	Quarterly digital reports with visualization	Annual summary published.
KPI 6	% of	Baseline data	Resolution	Average resolution	Compliance	$\geq 90\%$ resolution rate

	compliance issues resolved within specified timeframe	collection initiated	framework piloted in 2 units	time tracked (<30 days)	tracking integrated in dashboard	achieved annually
KPI 7	External governance audit score or rating	Audit TORs drafted	Audit firm engaged and baseline audit done	Implementation of $\geq 90\%$ audit recommendations	Second audit shows improvement in all dimensions	$\geq 90\%$ of recommendations from both audits sustained institutionally
KPI 8	Publication of Governance Strategy 2030 Roadmap	Framework outline initiated	Stakeholder consultations held	Draft governance roadmap created	Governance vision refined based on audit and feedback	Final “Governance Strategy 2030” adopted and launched institution-wide

Strategic Goal 2: Academic Excellence & Curriculum Development KPIs Framework (2025–2030)

Each KPI evolves year by year to ensure continuous improvement, innovation, and compliance with national standards.

#	Academic KPI	2025–2026 (Foundation Phase)	2026–2027 (Implementation Phase)	2027–2028 (Expansion Phase)	2028–2029 (Optimization Phase)	2029–2030 (Sustainability Phase)
KPI 1	% of programs reviewed for national standard alignment	Curriculum review initiated in 100% programs	Updated curricula finalized with stakeholders	Revised curricula implemented in all programs	Evaluation of student learning outcomes	All programs meet HEC/PMDC/PNAC standards
KPI 2	% of courses integrated with LMS	LMS piloted in 3 departments	90% course LMS deployment.	Digitization of 100% courses	>90% of teaching uses LMS tools	LMS institutionalized across all departments
KPI 3	Faculty participation in professional development	3 workshops conducted; teaching survey baseline	50% of faculty participate in peer reviews	Mentorship and development system launched	>75% of faculty covered in evaluations	Institutional teaching excellence framework implemented
KPI 4	Advanced academic programs launched and accredited	Feasibility studies initiated	Proposals submitted to HEC	≥1 program launched per college	Accreditation of new programs initiated	Interdisciplinary programs expanded and accredited
KPI 5	Industry and alumni involvement in curriculum review	Advisory boards formed across colleges	Graduate outcomes and feedback collected	Annual curriculum review conducted	Benchmarked against national outcomes	Impact report published and revisions institutionalized

Strategic Goal 3: Research Capacity & Innovation KPIs Framework (2025–2030)

Each KPI reflects phased development of a strong, globally engaged research ecosystem.

#	Research KPI	2025–2026	2026–2027	2027–2028	2028–2029	2029–2030
KPI 1	Research centers established and operational	2 research centres launched	Leads appointed; seed funding provided	Labs upgraded; department projects funded	Centers expanded across faculties	Research center network institutionalized
KPI 2	External collaborative research MoUs signed	5 MoUs signed	Joint research projects launched	Symposiums hosted	Best practices documented	Long-term funding secured
KPI 3	International engagement in research	Partners identified; grant calls opened	≥5 international grants submitted	≥10 researchers attend global conferences	International event hosted	Exchange and mobility programs institutionalized
KPI 4	Faculty & student research training completion	3 workshops conducted	IRB launched and trained	Training in IP, publishing, ethics	Mentorship for juniors launched	Impact measured through publication data
KPI 5	Innovation & commercialization milestones	Incentive policy drafted	Tech transfer office created	First patents submitted	Spin-off projects launched	Institutional recognition for innovation achieved

Strategic Goal 4: Community Engagement & Public Health Services KPIs Framework (2025–2030)

Structured to reflect growing community impact, sustainability, and embedded public service.

#	Community KPI	2025–2026	2026–2027	2027–2028	2028–2029	2029–2030
KPI 1	Outreach events & rural health coverage	3 rural outreach programs held	Expanded coverage through NGO partnerships	Referral networks developed	Impact metrics tracked	Institutional health impact index launched
KPI 2	Public–private partnership	3 MoUs signed	Joint events held with hospitals	Shared training programs launched	Satisfaction survey conducted	Renewed and expanded agreements in place

	development					
KPI 3	Service learning integration	Modules piloted in 3 colleges	Faculty trained; model expanded	University-wide implementation	Community reports evaluated	Service learning institutionalized
KPI 4	Technology-enabled public health	Tech solutions identified	SMS-based services launched	Health data linked to clinics	Mobile records digitized	Annual health impact dashboard published
KPI 5	University-wide engagement structure	Framework developed	Focal persons appointed	Field training conducted	Outreach strategy finalized	SMBBMU Community Health Index activated

Strategic Goal 5: Infrastructure Development & Technology Integration KPIs Framework (2025–2030)

Reflects phased infrastructure enhancement, digitization, and sustainability.

#	Infrastructure KPI	2025–2026	2026–2027	2027–2028	2028–2029	2029–2030
KPI 1	Facilities renovated/upgraded	Infrastructure audit completed	30% classrooms/labs renovated	70% upgrades complete	100% completion of target upgrades	IT review for future-ready updates completed
KPI 2	Academic & clinical facilities expansion	Blueprints finalized	Construction initiated	Simulation center operational	Utilization reviewed	Annual performance report published
KPI 3	Integration of teaching technologies	LMS deployment initiated	Blended delivery started	Virtual simulation in 3 faculties	Outcomes measured	Learning analytics dashboard institutionalized
KPI 4	Smart facility management	Maintenance systems digitized	Monitoring KPIs tracked	Staff trained in predictive systems	Downtime reduced by $\geq 30\%$	Energy optimization report published
KPI 5	Sustainable & green campus certification	Vision document drafted	Certification process initiated	Procurement follows sustainability checklist	Net-zero annex construction started	Certification achieved & sustainability report published

Strategic Goal 6: Partnerships & Industry Collaboration KPIs Framework (2025–2030)

Tracking institutional collaboration growth and international recognition.

#	Partnership KPI	2025–2026	2026–2027	2027–2028	2028–2029	2029–2030
KPI 1	Foundational MoUs signed	10 partnership targets identified	5 MoUs signed	3 collaborative projects launched	Annual partner review mechanism in place	Partnership renewal rate $\geq 80\%$
KPI 2	Student/faculty exchange programs	Joined 2 consortia	3 exchange programs launched	≥ 10 participants exchanged	Exchange labs and collaboration activated	Exchange programs institutionalized
KPI 3	Joint research & funding projects	Grant strategy developed	5 proposals submitted	≥ 2 projects funded	Innovation lab launched	External funding tracked via dashboard
KPI	Long-term strategic	5-year vision	Multi-year	MoUs aligned with	Health system	Satisfaction survey and

4	roadmap	drafted	agreements signed	academic planning	partnerships expanded	roadmap renewal completed
KPI 5	Global visibility and innovation recognition	International conference planned	Proceedings published	Innovation award nomination submitted	Best practices presented globally	At least one global recognition achieved

Strategic Areas Summary (Matrix)

Strategic Area	Objectives	% Completed	In Progress	Overdue	SDGs	Last Update
Institutional Governance	5				SDG 17	
Academic Excellence	5				SDG 4, 5	
Research & Innovation	5				SDG 3, 4, 17	
Community Engagement	5				SDG 3, 5	
Infrastructure & Technology	5				SDG 4, 13	
Industry Partnerships	5				SDG 4, 17	

STRATEGIC PLAN FORMULATION COMMITTEE

A collaborative approach has been used to formulate this strategic plan. Comprehensive input has been provided by the faculty, support departments, and external partners. The details of the Planning Team include the following:

SHAHEED MOHTARMA BENAZIR BHUTTO
MEDICAL UNIVERSITY LARKANA, SINDH, PAKISTAN
Phone: (92)-74-9410907, Fax 074-4752408, PABX: 9410717

No. SMBBMU/REG./-1394

Dated: 02-07-2024.

OFFICE ORDER

The Honourable Vice Chancellor, SMBB Medical University Larkana has been pleased to constitute **Executive Committee for the Strategic Plan (ECSP)** at SMBB Medical University Larkana.

The committee shall comprise of following members:

- | | |
|---|------------------------------|
| 1. Prof. Dr. Nusrat Shah
Vice Chancellor,
SMBB Medical University, Larkana. | Chairperson |
| 2. Prof. Dr. Safdar Ali Shaikh
Registrar,
SMBB Medical University, Larkana. | Member & Convener |
| 3. All Principals / Directors
Constituent Colleges / Institutes,
SMBB Medical University, Larkana. | Members |
| 4. Dr. Zahida Abro
Associate Professor & Head of Campus,
SZABIST, Larkana. | Adviser / Member |
| 5. Dr. Saira Fatima Shaikh
Director Medical Education,
SMBB Medical University, Larkana. | Member |
| 6. Mr. Zahid Hussain Dharejo
Director P&D,
SMBB Medical University, Larkana. | Member |
| 7. Mr. Jibran Zafar Pirzado
Director Human Resources,
SMBB Medical University, Larkana. | Member |
| 8. Mr. Sarfraz Ahmed Tunio
Director Finance,
SMBB Medical University, Larkana. | Member |
| 9. Mr. Altamash Sheeraz Soomro
Director QEC,
SMBB Medical University, Larkana. | Member |

Terms of References (TORs):

- To provide leadership, oversight, and strategic direction for the development, implementation, and monitoring of the Strategic Plan at SMBBMU Larkana.
- To ensure alignment with the University's mission, vision, and goals, fostering an environment of excellence in medical education, research, and healthcare services.
- To arrange meeting(s) at least quarterly, with additional meetings convened as necessary.
- Risk Management and compliance to ensure relevant policies, regulations and standards.
- Maintain thorough documentation of meetings, decisions, and actions.
- Advice on allocation of efficient use of resources to support SP.
- Maintain Strong communication among members.
